Your Technology Partner in Achieving Business Goals

WeST Group

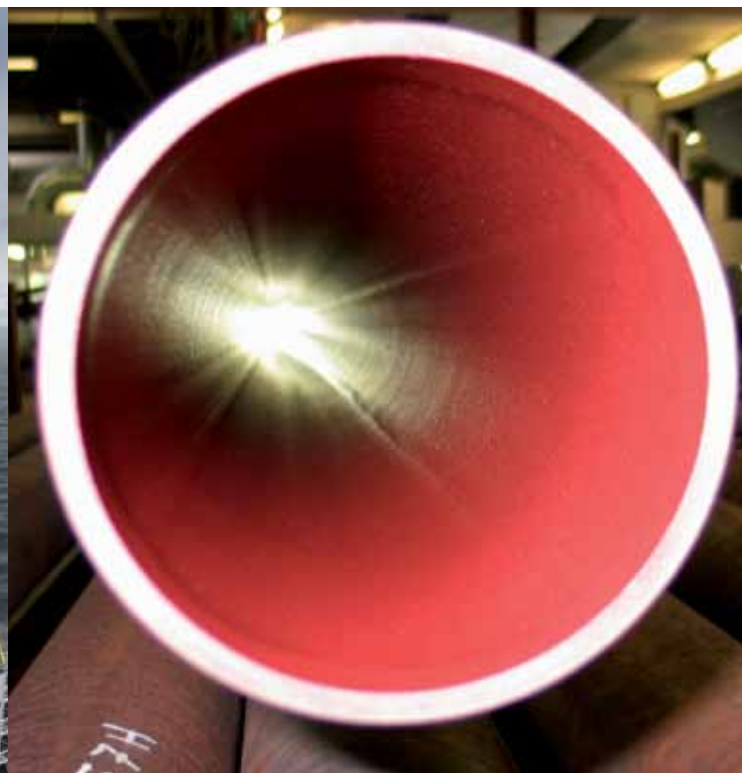

Drilling Innovations

Continuous Motion Rig^{Pat.Pend.}

- Constant Tripping Speed
- Fully Automated → Safer & Faster Operations
- Swab & Surge Challenges Eliminated
- Improved Hole Quality & No Differential Sticking
- Continuous Drilling & Circulation
- Design Options for both New & Existing rigs
- Continuous Running of Casing

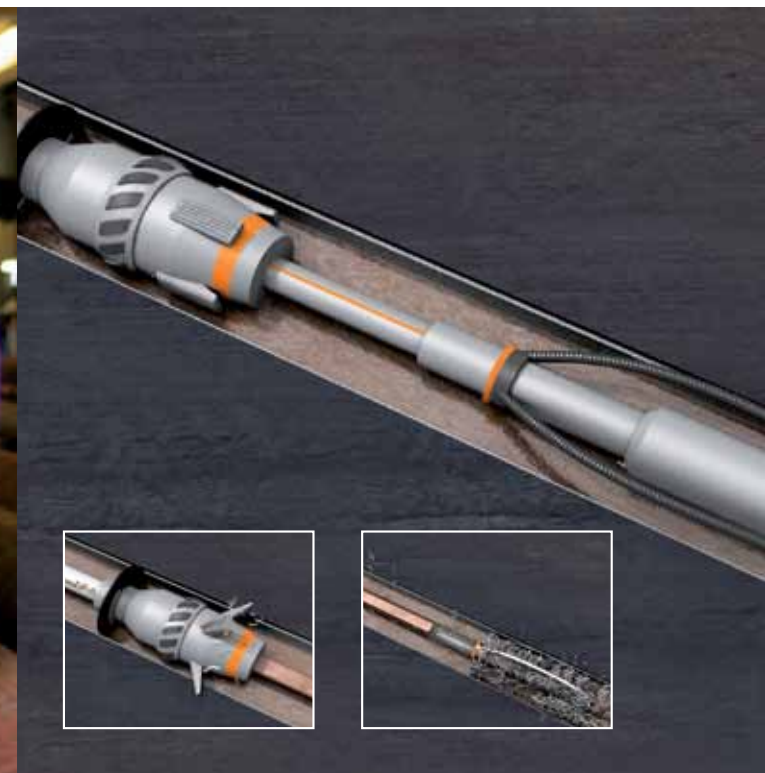

Material Innovations

DuPontTM StreaMaxTM Coating Technology

- Maximize Well Productivity
- Minimize Operation & Maintenance Costs
- Minimizes Deposition of Scale, Asphaltenes & Wax
- Superior Corrosion Protection & Chemical Resistance
- Wide Temperature Range (-100 to +260 °C)
- Very Low Friction Coefficient

P&A Innovations

Casing Milling Technology^{Pat.Pend.}

DownHole Swarf Deposition Technology^{Pat.Pend.}

- One-Trip Milling Operation
- Leaves Swarf DownHole
- No need for Swarf Handling on Surface
- Less Wear on Surface & DownHole Equipment
- Less Vibrations due to Upwards Milling
